

OMNI SPECTRA (OSM) TO COAXICOM CROSS REFERENCE

The parts shown in the cross references are functional equivalents, and in most cases dimensionally equal. Most Omni Spectra/MA-COM/Tyco (Omni-Spectra) stainless steel parts are shown with a "00" suffix (gold plating). A "02 " suffix indicates a passivated finish. Replacing the "00" with "02" on an Omni-Spectra part will change the finish from gold to passivated. For Coaxicom, a "1" suffix indicates gold, while a "9" suffix indicates a passivated finish. For brass connectors, Omni-Spectra uses an "09" suffix for gold plated and "10" for nickel plated. The Coaxicom suffix for nickel plating is -7.
